

UNIVERSE
CAPSULES

UNIVERSE CAPSULES BIOTECH (P) LTD.

Manufacturer of Empty hard capsules.

ABOUT US

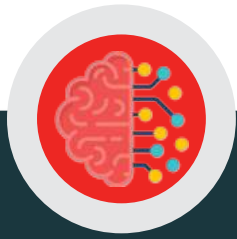

We are dedicatedly engaged in manufacturing of high-quality hard-shell gelatin capsules. Our focus is to use innovative driven and latest technology for manufacturing and exporting our products in India and global market. Our capsules permit a scale of flexibility of formulation at par with any other top manufacturers. The high-quality TSE/BSE Free Gelatin Capsules providing superior performance while using high speed filling machine available in the world.

We have collaboration with WHO – GMP recognized manufacturing associates. The products offered by us are complies to the international quality standards during the processing/manufacturing of the products. We understand that quality of the products forms the base for winning the credibility of our clients. Thus, we follow a stringent quality control procedure as per which the procured products are tested based on several quality parameters and are, then, sent for packaging. We also lay special focus on maintaining optimum quality of packaging, to protect the products against possible losses during transit. Our quality-oriented approach strictly adheres to the WHO-GMP, USP, BP and IP norms. Considering the budgetary constraints of our clients, we offer the products at cost-effective prices and deliver the same within the desired time. We also accept flexible payment modes and export the products through several shipment modes for the convenience of our clients.

Our mentor, “Dr. Mani Sharma”, is bestowed with immense skill and expertise in the pharmaceutical industry. With his experience and knowledge, it has become easier for us to understand the requirements of the clients and cater to them in the best possible manner. He has, since our inception, inspired the team to work harder with utmost dedication for the success and growth of the organization.
